

### APPLICATION

Egg crate grille or cube core grille is designed to meet the commercial & industrial need for low resistance, high to medium air volume return or exhaust grille.

### FEATURED STANDARD CONSTRUCTION

**•FRAME:**

- Constructed from heavy extruded aluminum with 1<sup>7</sup>/<sub>64</sub>" (36 mm) flange face border with a 1<sup>3</sup>/<sub>16</sub>" (30mm) overlap margin with interlocked corners and mechanically stacked to form a rigid frame.

**•CORE:**

- Egg Crate Core are made of 1/2" x 1/2" thin aluminum strips assembled in grid fashion on 1/2" centers.

**•FINISH:**

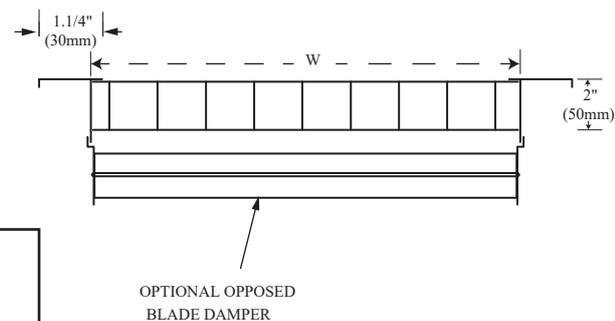

- RAL 9010.

**•SIZES:**

- Minimum size : 6" x 4"
- Maximum size : 48" x 24"
- Larger sizes are constructed of factory joined multiple sections.

### OPTIONS

- Opposed blade damper (OBD) can be fixed on the back of the grille.
- Concealed clips for fixation or countersunk screwholes in the borders for fixation.
- Foam gasket on the back of the frame.
- 1" (25mm) Aluminum Filter.
- Mill finish (brut), all type of RAL finishing.

*NB :-Actual sizes will differ from order sizes due to clearance restricted from egg crate grid. For more information please consult our engineers*
